California Online Privacy Protection Act

CalOPPA is the first state law in the nation to require commercial websites and online services to post a privacy policy. The law's reach stretches well beyond California to require a person or company in the United States (and conceivably the world) that operates websites collecting Personally Identifiable Information from California consumers to post a conspicuous privacy policy on its website stating exactly the information being collected and those individuals with whom it is being shared, and to comply with this policy. (According to CalOPPA, we agree to allow users to visit our site anonymously.)

Users will be notified of any privacy policy changes in the following way:

On our Privacy Policy Page

Users can request additional information and request changes by emailing us at info@dovemedical.org.

How does our site handle do not track signals?

We honor do not track signals and do not track, plant cookies, or use advertising when a Do Not Track (DNT) browser mechanism is in place.

Does our site allow third party behavioral tracking?

It is also important to note that we do not allow third party behavioral tracking.

COPPA (Children Online Privacy Protection Act)

When it comes to the collection of personal information from children under 13, the Children's Online Privacy Protection Act (COPPA) puts parents in control. The Federal Trade Commission, the nation's consumer protection agency, enforces the COPPA Rule, which spells out what operators of websites and online services must do to protect children's privacy and safety online.

Fair Information Practices

The Fair Information Practices Principles form the backbone of privacy law in the United States and the concepts they include have played a significant role in the development of data protection laws around the globe. Understanding the Fair Information Practice Principles and how they should be implemented is critical to comply with the various privacy laws that protect personal information.

DOVE MEDICAL

In order to be in line with Fair Information Practices, we will take the following responsive actions, should a data breach occur:

- We will notify the users via email within 7 business days
- We also agree to the individual redress principle, which requires that individuals have a right to pursue legally enforceable rights against data collectors and processors who fail to adhere to the law. This principle requires not only that individuals have enforceable rights against data users but also that individuals have recourse to courts or a government agency to investigate and/or prosecute non-compliance by data processors.

CAN-SPAM Act

The CAN-SPAM Act is a law that sets the rules for commercial email, establishes requirements for commercial messages, gives recipients the right to have emails stopped from being sent to them, and spells out tough penalties for violations.

We collect your email address in order to:

- Process orders and to send information and updates pertaining to orders

To be in accordance with CAN-SPAM, we agree to the following:

- Do not use false or misleading subjects or email addresses
- Only respond to emails as requested
- Include the physical address of our business or site headquarters
